Where Innovation Powers Progress

Events That Energise the Mining, Energy & Resources Sector

In the mining, energy and resources sector, events are more than formalities - they're strategic platforms for stakeholder engagement, industry leadership, recognition, and transformation. Whether it's an annual general meeting, a technical forum, launch or gala awards night, Encore delivers high-impact experiences that reflect the scale, innovation, and significance of this powerful industry.

Annual General Meetings

Built with precision, clarity and confidence

Encore specialises in delivering annual general meetings that meet the highest standards of professionalism and compliance. For organisations where transparency and shareholder trust are critical, we provide crystal-clear audio for every voice, large-format screens to present complex data with impact, and polished staging that reflects your brand's credibility.

Our tailored approach ensures your AGM runs smoothly, meets regulatory expectations, and leaves stakeholders with lasting confidence in your leadership.

Enhancing Engagement with Chime

Real-time interaction for hybrid and in-person AGMs

Encore's Chime platform powers engagement with interactive tools that transform attendees into active participants. Delegates can vote, ask questions and provide feedback in real time - all from their own devices. Chime also enables instant access to reports, presentations and documents, creating a seamless user experience. For hybrid AGMs, it's the ideal tool for enabling broad participation across states, countries and time zones, while fully integrating with Encore's end-to-end event services.

“Encore’s approach to AGM production is grounded in clarity, professionalism, and engagement. The foundation of a successful AGM lies in its technical execution.”

Industry Conferences & Forums

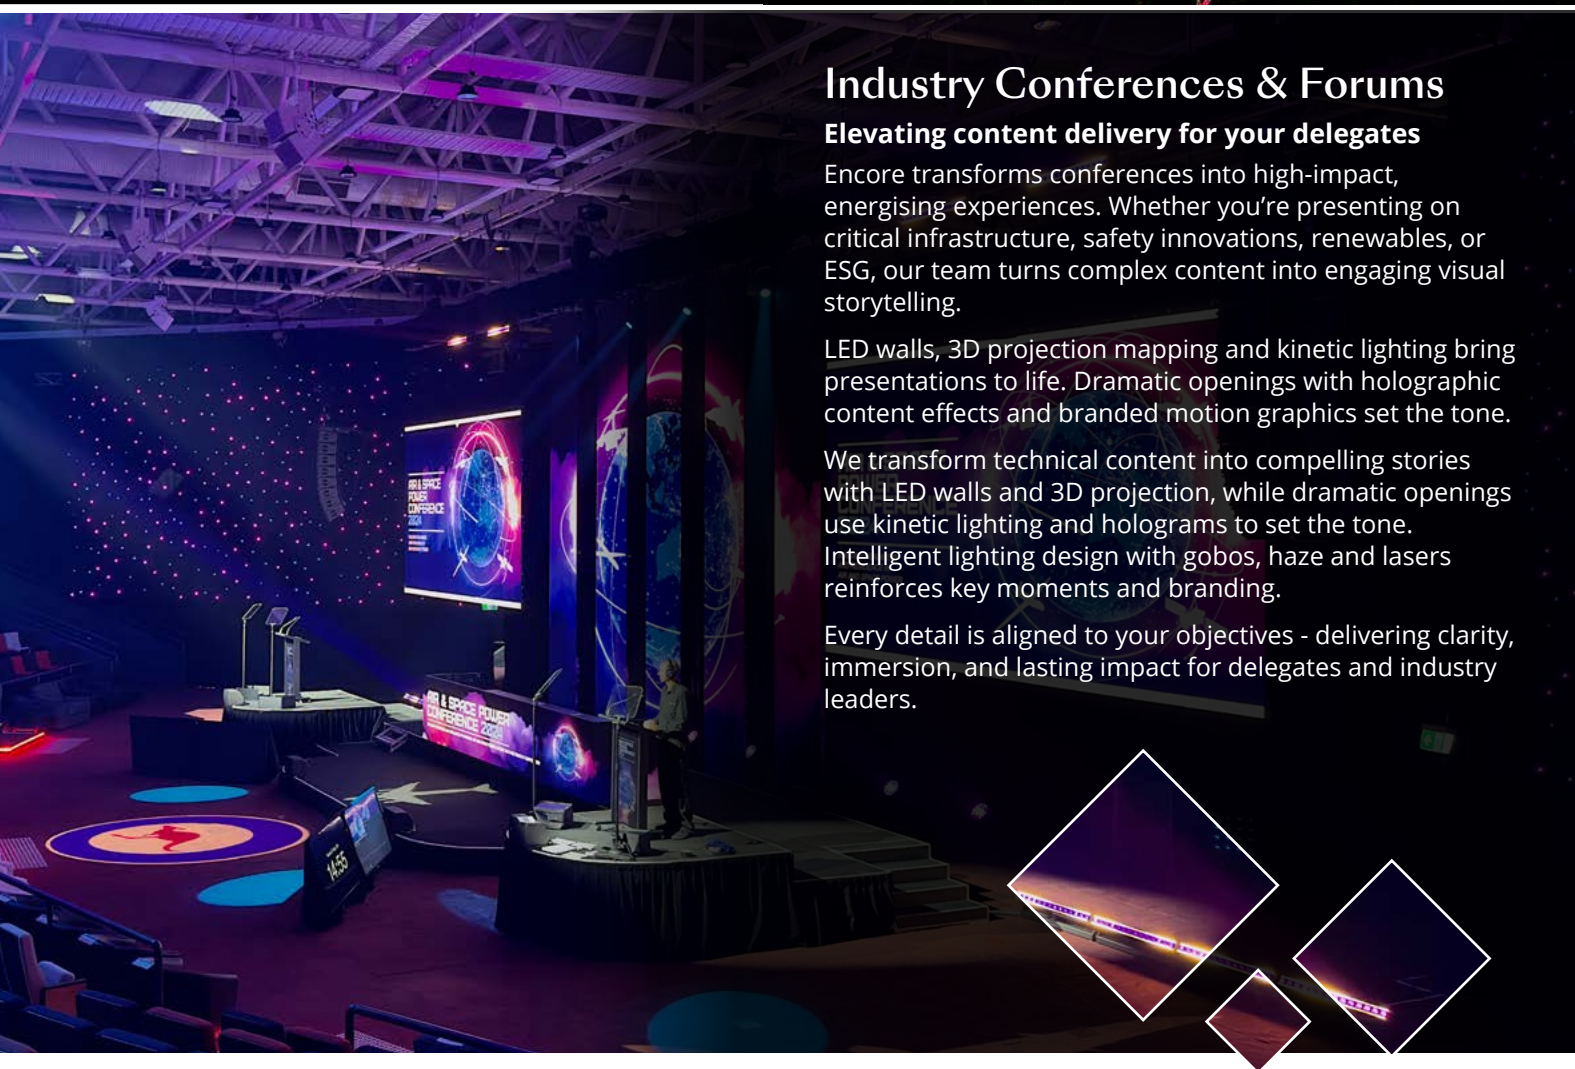

Elevating content delivery for your delegates

Encore transforms conferences into high-impact, energising experiences. Whether you're presenting on critical infrastructure, safety innovations, renewables, or ESG, our team turns complex content into engaging visual storytelling.

LED walls, 3D projection mapping and kinetic lighting bring presentations to life. Dramatic openings with holographic content effects and branded motion graphics set the tone.

We transform technical content into compelling stories with LED walls and 3D projection, while dramatic openings use kinetic lighting and holograms to set the tone. Intelligent lighting design with gobos, haze and lasers reinforces key moments and branding.

Every detail is aligned to your objectives - delivering clarity, immersion, and lasting impact for delegates and industry leaders.

Gala Dinners & Awards Nights

Celebrating industry excellence with style and precision

Encore delivers awards nights and gala dinners that reflect the prestige and achievement of the mining, energy and resources sectors. Whether it's honouring long-standing service in mining, innovation in renewables, or safety milestones across the sector, we produce showstopping experiences with seamless execution.

From immersive lighting design and intelligent staging to precision show calling and theatrical moments, every element is tailored to your brand and audience. Styling and themes can reflect a rugged, industrial aesthetic or a sleek, modern energy - ensuring the look and feel is aligned to your company culture and industry identity.

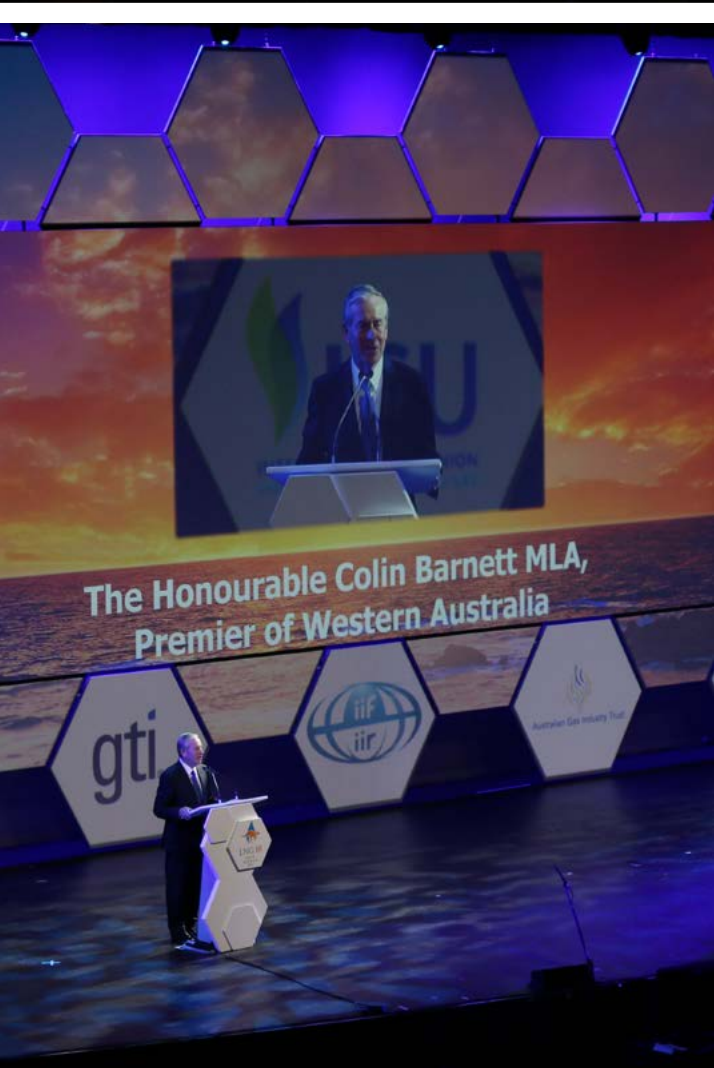

The outcome? An unforgettable celebration that uplifts achievement and leaves a powerful impression.

Conference

Encore delivered the full AV experience for LNG18, the world's largest liquefied natural gas conference, held at the Perth Convention and Exhibition Centre. Over four days, Encore managed all audio, vision, lighting, staging and multimedia content across plenary sessions, breakout rooms and keynote events. A standout feature was the hexagonal stage set, designed for projection mapping with stunning visuals of Australia's landscapes and LNG projects. Using advanced tech like 18K projectors and Watchout software, Encore created a seamless, high-impact experience for over 6,000 attendees, including global CEOs and government leaders. The result: a world-class production that left a lasting impression.

Gala Dinner

Morris Corp, a mining and construction asset management provider, hosted its annual leadership conference and gala dinner at QT Hotel on the Gold Coast. They engaged Encore Event Technologies to bring their black and gold vision to life for 165 guests. A honeycomb-inspired stage set with dramatic lighting created a striking focal point. Table styling featured mirrored hexagonal centrepieces topped with metallic hurricanes and copper bud lights, casting warm reflections. Gold charger plates, black napkins, and gold chair sashes completed the luxe look, showcasing Encore's ability to transform spaces into unforgettable themed experiences.

Seamless AGM

Encore delivered a seamless AGM for Scentre Group at Sydney Town Hall, marking the final appearance of outgoing Chairman Frank Lowy. The production featured a custom board table with individual visual displays for each board member, a large central screen, and lighting in brand colours to enhance the formal setting. Encore managed all AV and lighting to ensure clear communication to the 250 attendees, including media, shareholders and staff. The event was also live webcast globally, extending its reach to shareholders worldwide. With precision execution, Encore ensured a polished, professional experience befitting the significance of the occasion.

Gala Dinner

Encore delivered a showstopping Australiana-themed gala dinner for Automotive Brands Group at Jupiters Hotel & Casino. The centrepiece was a custom-built 26-metre curved screen, brought to life with a multi-projector blend and animated content showcasing Australia's landscapes. Intelligent lighting synced with the visuals to evoke rainforest, coastal, outback and beach scenes. Award winners were celebrated with dynamic AV effects, while floral styling and glittering table décor added elegance. The result? A seamless, high-impact experience that wowed over 600 guests and earned praise as "a benchmark for the industry" and "a slick, professional gala that ran like clockwork."

Conference

Encore transformed the Air and Space Power Conference into a visually stunning, immersive experience for the Royal Australian Air Force. With only a static graphic as a brief, the team delivered a space-themed environment using an all-LED set design that replaced traditional projection for enhanced brightness and colour. The stage featured curved, multi-level platforms, digital lecterns, and atmospheric lighting with haze and GOBOS. Detailed 3D renders ensured flawless execution, earning glowing feedback from the client, especially for the LED impact and visualisation process. The success has the RAAF already looking forward to the next event.
