MAUVE & GOLD

The combination of mauve and gold tones in this Christmas colour palette creates a festive atmosphere by evoking a sense of warmth and luxury. The rich gold tones symbolise the traditional elegance of the holiday season, while the mauve hues add a modern and sophisticated touch. Together, these colours create a beautiful backdrop that sets the perfect tone for a festive and stylish celebration.

Christmas Hurricane

At 200mm high, this centrepiece features the gold hurricane lux complimented with a bauble trio, a glossy ribbon bow and 3 gold tealight votives. A gold-mirrored hex base further highlights the centrepiece.

Geometric Christmas

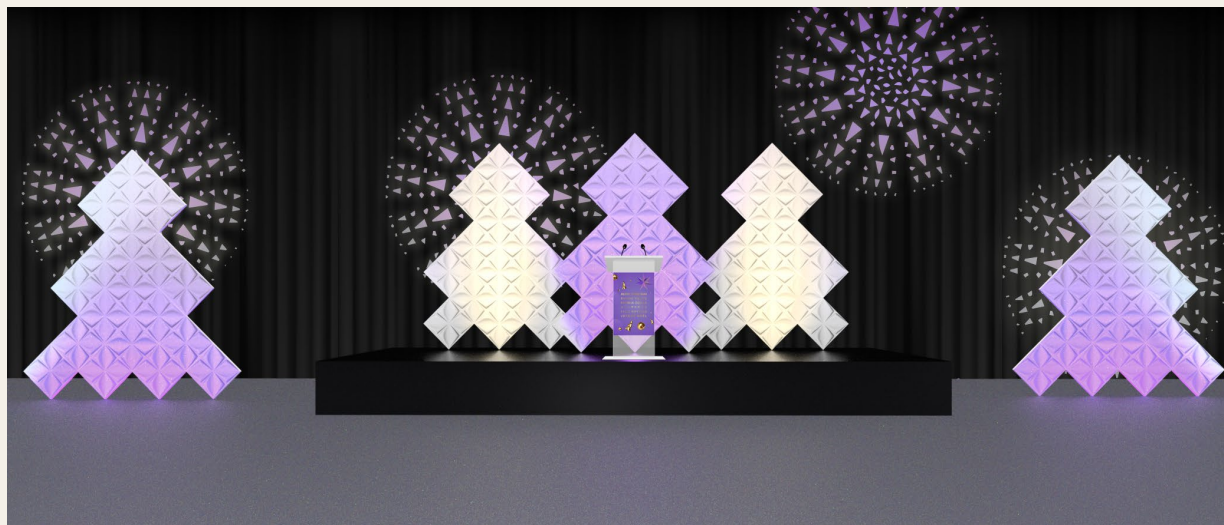

At 300mm high, this centrepiece is a freestanding geometric sculpture accentuating metallic golden hues paired with subtle lighting. Golden baubles and mauve ornaments decorate the centrepiece on a gold-mirrored hex base.

Christmas Digiprint

A stylish internally lit Christmas centrepiece is displayed on a gold hex mirror, catching golden light reflections at any angle. This customisable centrepiece is available in a large quantity to suit any event. Print size comes in 573mm wide by 310mm high.

CENTREPIECES

Design One

Scenic panel trees decorate your stage band feature walls, up lit in purple and golden lighting. Enhanced with gobo lighting treatment through your room that can move across the set and feature wall.

Design Two

Create impact with an illuminated event backdrop standing central to your stage. Add further impact to your stage set with scenic panel Christmas trees up lit with purple and golden hues.

Complete your Christmas event with a stylish stage set. Featuring a combination of 3D scenic panel Christmas trees with specialty lighting options and gobo projections. You can make your stage set more festive by adding a LED screen and 3D scenic Christmas trees surrounding the space.

Designed with our Round LED series, this stage set offers unique visual experiences with creative and detailed design solutions for Christmas theming. The layout of this set works perfectly with the LED screen panels and Astera tubes we offer.

You can create the perfect Christmas set with our creative customisation - from triangular shapes to polygon and star shapes. On stage features the bendable soft LED module which is highly flexible and ideal for creating curved LED displays with unique shapes, such as this abstract LED Chandelier. This set layout works well with the LED screen panels and the Astera tubes we offer.

Connecting in unison

Create a memorable feature wall, entrance wall or directional signage with linked pixel totems

Individual and impactful

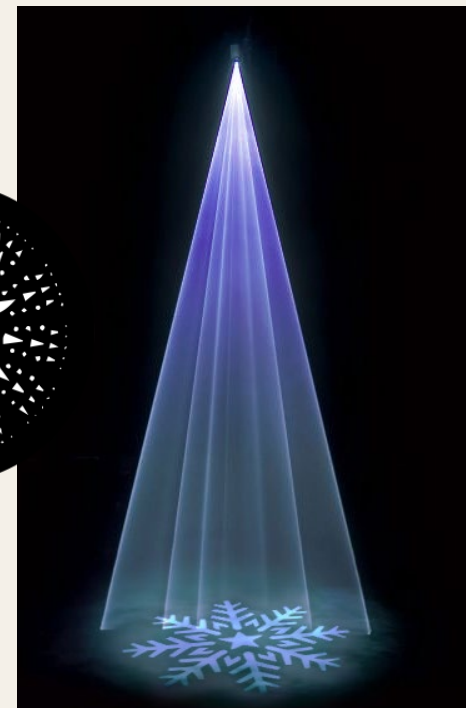

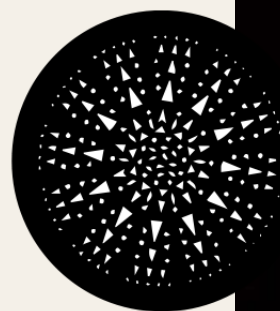

Used as way finding, entrance feature or digital banners these totem displays bring Christmas digital ambiance to any space.

PIXEL TOTEMS

This beautiful and bold holding slide will look great on a feature screen behind stage or multiple screens around the room. Content on a holding slide will set the scene for the festive colour palette while adding Christmas cheer. Add animated content for screens, Led Panels, Totem Panels and all other digital platforms.

Christmas Gobos

Add a subtle yet ambient lighting effect with Christmas themed gobos. Gobos can be projected onto any event space, walls and floor to add texture and extra theming to the room. Custom branded and coloured gobos are also available to enhance your event. A large variety of steel, glass and coloured Christmas themed gobos are available.
